

# Vision Mission & Values

Advantage HHCI is dedicated to provide members of our community, our clients; an alternative to institutionalized care by offering quality and affordable home health care services in the comfort of their home.

Advantage HHCI provides each family with a trained aide that works with the needs of the child.

To become a member of our team, please give us a call at 571.267.7723 and one of our staff will help guide you .

## Who we are:

Advantage Home Health Care opened its doors to the Northern Virginia Community in August 2007. We are licensed by the Virginia Department of Health to provide in-home care service. Our goal is to establish a healthy relationship with all of our clients as well as their primary team, their family and all providers involved in the care. By doing so, Advantage HHCI is looking to maximize our clients ability to fully rehabilitate, gain independence, and maintain their safety and welfare in their environment of choice.

Advantage HHCI staff is dedicated in offering an individualized plan of care to clients of all ages and cultural backgrounds. We strongly believe that Kindness, Dignity, and Respect are a reflection of the quality care we provide.

## PERSONAL CARE SERVICES:

Below are some activities that are done to help that individual on a day to day basis:

- Assistance with activities of daily living (ADLs) such as: bathing or showering, toileting, dressing, transferring, etc.;
- Assistance with monitoring health status and physical condition;
- Assistance with self-administration of medication (not to include in any way determining the dosage of medication or the direct administration of medication) and other medical needs;
- Assistance with preparation and eating of meals (preparation of only the individual's meal is allowed);
- Assistance with instrumental activities of daily living (IADLs) such as house-keeping activities including bed making, dusting, vacuuming, laundry, and grocery shopping, etc., when specified in the individual's Plan of Care and essential to the individual's health or welfare, or both. These activities are limited to those areas that are affected by the individual's direct use;
- General support to assure the safety of the individual; etc.

## WHY ADVANTAGE HHCI?

Our caregivers are trained for child care by obtaining a Medicaid Approved Personal Care Aide certification. Upon hire, our aide attends mandatory orientation in which basic and essential topics for home care are discussed. As for individuals with special needs, our aides undergo "Intellectual Disability Training" which focuses on helping them learn and understand how to help the individual in need. They are trained on how to find the best methods in handling and caring for that individual and also taught what solutions are best for growth. Each individual is unique and creating an individualized training program helps development for both the caregiver and the child in need.

**Children's Mental Health Matters!**
